

TOMMY GATE MAKING YOUR JOB EASIER

GAS BOTTLE SYSTEM

- Lifting capacity: 910kg.
- The Gas Bottle Rack Model incorporates a platform designed specifically for handling various sizes of gas bottles or other liquid or gas containers.
- A 750mm tall folding retention fence allows the containers to be secured while the platform is raised and lowered.
- The fence folds up automatically with the platform when the platform is closed.
- A 12-inch steel hinged folding ramp aids in moving the containers on and off the platform.
- Platforms raise and lower exactly vertically, meaning there is no "throw out" motion as with other types of platforms.

IF YOU NEED TO **DELIVER GAS BOTTLES OR SIMILAR PRODUCTS** TOMMY GATE HAS THE SOLUTION. WHETHER YOU HAVE A SMALL ONE TONNE UTE OR A 24 GVM TRUCK WE HAVE THE ANSWER.

EASY TO USE

SPARE WHEEL
 STAYS UNDER TRAY

FULLY PROTECTED
 POWER PACK

Tommy Gate are a vertical lift gate that will fit onto anything from a style side ute body up to a 2500mm wide tray body. Our larger 910kg gas bottle lifter comes with collapsible side gates for extra safety when unloading larger bottles.

With Tommy Gates unique 'Plug and Play' design, our lift gates can be fitted and operated with the upmost confidence and ease. When your truck or ute is up for replacement simply unbolt the Tommy Gate and refit it to your new vehicle.
